

Our strength is in the flexibility.

With **Allvis Measuring System** it is easy to check the damaged vehicle in all three dimensions. You can choose to do a comparative measurement or use the included software; either way the Allvis system will do the work for you in a quick, accurate and effective way.

FLEXIBILITY

You can use Allvis Measuring System where it suits you best - on the lift, the bench or the floor.

ADVANTAGES

- » Short start-up time
- » Simple and quick measurement of the vehicle.
- » Cost-effective measuring
- » Documents the measurement operation by printing.
- » Ability to save documents on your computer.
- » Continuous update of new models.

Art.no. AVS310
